

IN A BLAZE OF GLORY.

The Festivities in Chicago Have Begun.

A BRILLIANT RECEPTION.

Two Thousand or More Distinguished Visitors Entertained By a Thousand Leading Citizens of Chicago in the Great Auditorium.

CHICAGO'S AUDITORIUM.

CHICAGO, Oct. 20.—Chicago's Auditorium, the greatest assembly hall of the continent discovered by Christopher Columbus, was ablaze with light and beauty last night. Lovely women were there, women whose presence would create a furor at a drawing room in Buckingham palace, presided over by the venerable Victoria Regina, women in toilets that would put to shame the greatest creations of a Worth. And there were men—men who have made their imprint on the history of this and other nations, statesmen and diplomats, warriors that have faced the dusky foe in the jungles and tried conclusions with the enemy on the briny deep, men of letters and of law, of science and of art, merchant princes, whose early days tell stories of toil and poverty, and who stand today as gigantic monuments of the opportunities afforded to energy and independence under the flag of a free republic.

Patriotism was the animating motive of the occasion and the event, love and exaltations for native land, the tribute of the four hundred to an event that has dignified the present metropolis of the west and future metropolis of the republic. For the assembly in the 'Honour of last night was essentially a private affair. So far as the official program of dedication week was concerned it had no recognition beyond the formal endorsement of the committee on ceremonies of the world's Columbian exposition, an endorsement that carried with it neither financial liability or responsibility. A thousand or more of the leading citizens of Chicago were the hosts, 2,000 or more of distinguished women and men of the civilized nations of the earth the guests.

As a social function there was an effervescence of patriotic fervor on the part of the ruling element of the Garden City, it was perhaps the most notable event, so far as society was concerned, in her entire history. It was a night that all of the fortunate participants and possibly many of the unfortunate non-participants will long remember. That is, providing they ever forget.

It was a scene of almost indescribable brilliance that presented itself to the vision of the vice president of the United States when, at 9:30 o'clock to the moment, leaning upon the arm of President H. N. Higginbotham, of the world's fair directory, he appeared upon the floor of the ball room. The brilliant hues of the bunting seemed to struggle for recognition with the rays of the electric lights.

The steel curtain of the stage had been raised and in its place half fluttered the Spanish royal banner. To the right and left, above and below, were banners upon which were embroidered the initials of Queen Isabella and her consort, the rulers of Spain, in the time of the great discoverer. In the space between the boxes and the proscenium arch loomed up a massive United States shield. It was surmounted by a stand of colors, and supported on the right and left by the flags of all the American republics. To the south, on the corresponding panel was the shield of Spain, surrounded by the flags of all the nations of the Old World, a bouquet of national emblems, in which the colors of Spain and Italy were conspicuous. To the right and left, before and behind, above and below, fluttering in the air from the balconies and hiding from view the primitive nakedness of the marble pillars, were the stripes, in profusion almost beyond the arithmetician's art of calculation or guess work.

Queen Flora also played no insignificant part in the decoration. There were festoons of wild smilax running in front of all the boxes, and running thence along the balcony and the gallery proper. Here and there the green of nature was relieved with artificial rosettes of red and yellow. Towering banks of palms and ferns supported the panels to the right and left of the proscenium, while a mass of green foliage formed a centerpiece for the stage, and a rising bank of ferns and tropical plants hid from view the military band directed by Sousa, of marine band renown, that furnished the music for the grand march.

It was not until after 9 o'clock that the doors of the Auditorium were opened and the scores of vehicles in waiting commenced to empty their occupants into the rotunda that lay beyond the broad portals of the entrances. Until the arrival of Vice President Morton the guests were fain to occupy the seats adjoining the floor in the balcony. The appearance of Mr. Morton was recognized by a flutter of feminine apparel, but decorum militated against any demonstration of joy and gladness on the part of the sterner sex. The vice president was escorted to a position in the eastern corner of the hall, and the reception was at once inaugurated. The guests passed over the floor in procession, being first introduced to the man-

agers, then to the committee of arrangements, next to the patronesses, and finally, after running this gauntlet, to the vice president and distinguished guests.

At the conclusion of the reception and which continued until nearly 11 o'clock, the vice president was escorted to the loge on the immediate right of the stage, and the remainder of the distinguished guests followed in this order: The members of President Harrison's cabinet, headed by Secretary Foster and Postmaster General Wanamaker, Speaker Charles F. Crisp and party, Chief Justice Melville E. Fuller and party, the associate justices of the supreme court.

Boxes H to M were occupied by Governor's Reynolds of Delaware, Pattison of Pennsylvania, Abbott of New Jersey, Bulkely of Connecticut, Russell of Massachusetts, and Brown of Maryland.

The reception committee held the fort in box N and had as neighbors Governor Flower of New York, Holt of North Carolina, and Brown of Rhode Island.

There were some dazzling toilets in the adjoining box, which had been allotted to the board of lady managers and in which Mrs. Potter Palmer, president of the board, was at times conspicuous. The visiting members of the diplomatic corps, the local directors and the members of the national commission were near by neighbors of the ladies, and beyond these twenty-five consecutively numbered boxes were occupied by the executives of states previously unprovided for, commencing with Governor Page, of Vermont, and concluding with Governor Markham, of California. All of the chief executives were accompanied either by their staffs or members of their respective families.

After the reception considerable time was occupied by the managers in arranging the floor for the opening quadrille, and it was after 11 o'clock when the strains of the cornet, violin and harp summoned the devotees of the terpsichorean art to the center of the floor to inaugurate a tripping of the light fantastic toe, which was continued until daylight.

CAPTAIN HEALY HEARD FROM.

His Ship Evidently Cut Out for Good Work Along Alaska.

WASHINGTON, Oct. 20.—Captain M. A. Healy, U. S. R. M., in a long report to the secretary of the treasury, dated Unalaska, Sept. 25, of the cruise of the steamer Bear in North Arctic waters says that the station promulgated the order projected at the department and succeeded in introducing reindeer in Unalaska.

In giving a detailed account of the cruise of the revenue steamer Bear Captain Healy says that the annual visit of the vessel to northern Alaska has now become the time for the adjustment of the differences of all kinds, the starting of new enterprises and the correction of various abuses.

Captain Healy says this season has been particularly open, and nearly the entire whaling fleet had gone east of Point Barrow when the Bear sailed south. The schooner May D. Hume made the extraordinary catch of thirty-nine whales during the spring. The establishment of the refuge station at Point Barrow, with its constant supply of provisions, has encouraged whalers to go farther north and into more profitable places in pursuit of their trade with the knowledge that in case of accident they will not be left to the mercy of an Arctic winter without food or shelter. Captain Healy says his efforts to prevent the introduction of spirituous liquors were unusually successful despite the great extent of territory to be patrolled, and is of the opinion that he has driven the liquor traffic out of the country. The Bear will assist the United States steamer Adams in guarding the seal islands until Dec. 1.

GROWING SERIOUS.

The Strike on the Santa Fe System Likely to Extend All Along the Line.

ST. LOUIS, Oct. 20.—Twenty-two telegraph operators arrived here last night from Chicago en route to Kansas City in response to advertisements printed in papers of that city, offering railroad operators permanent employment. The Chicago operators were joined at the depot here by twenty-three St. Louis telegraphers and the entire party left for Kansas City.

The agency that had the advertisement inserted is endeavoring to supply the vacancies caused by the strike on the Gulf, Colorado and Santa Fe branch, and, as over seventy-five operators are said to have been sent south during the past two days, it is thought by tomorrow every vacancy occasioned by the strike will be filled.

It is apprehended in this city that this action means a suspension of negotiations between the railroad company and the strikers. If this prove true, it is predicted that Grand Chief Ramsey, of the Order of Railway Telegraphers, will call out the whole Santa Fe system rather than let those on the Gulf branch of the road lose the fight.

GARZA BANDITS.

Texas Rangers Have a Hot Fight with a Band of Them.

SAN ANTONIO, Tex., Oct. 20.—The recent depredations committed by Mexican outlaws in Starr and other border counties have stirred up the people in that section, and the authorities are making strong efforts to capture the perpetrators of the outrages.

Monday a band of them was discovered near the Palito Blanco ranch, which is the home of A. Gonzales, the father-in-law of Catarina Garza. Four Texas rangers, led by Captain Tonbio Ramerz, made an attack on the bandits. Several shots were exchanged and Ramerz was wounded. The rangers closed in on the outlaws and captured four of them.

The prisoners were formerly members of Garza's so-called revolutionary army, and have been leading the lives of bandits ever since that movement was squelched.

FALL OF CHILDREN.

Three Hundred of Them Precipitated Fifteen Feet.

LUCKILY NO ONE WAS KILLED.

Many Received Broken Bones and Otherwise Seriously Injured—A Columbus Celebration Interfered With By the Accident.

WEST WINSTED, Conn., Oct. 20.—Four hundred school children were seated on temporary seats fifteen feet high, yesterday afternoon, rehearsing for the Columbus Day celebration on Friday, when the benches collapsed and 300 children fell to the floor. Many received broken limbs, but none were killed.

Eight hundred pupils with principals and teachers had marched the streets with a drum corps for a marching drill, and went to the rink to practice chorus singing of national airs for the big Columbus Day celebration. Temporary seats were erected in tiers to the height of fifteen feet to hold 1,000 children. They were being seated on the upper seats, and the first 400 had been seated, when the five top rows collapsed. Three hundred children fell to the floor in a heap, and the wreck and their screams caused a panic among the others who escaped, while several women fainted.

A crowd was quickly on the spot to rescue the children, some of whom were pulled out with broken arms and legs and collar bones, or otherwise hurt, some being unconscious. All the town doctors were summoned, and many teams were pressed into service to take the children home. None were fatally hurt. The smallest children, those from five to twelve years of age, occupied the top seats, which had evidently been carelessly constructed.

The community is excited and indignant and there has been threats of lynching Carpenter Curtis while there are said to be many law suits in store for him. The children were to be the principal feature of the Columbus celebration, but the accident has greatly interfered with that part of the program.

BIG BALLOT.

The Election Ticket in Indiana Being Printed.

INDIANAPOLIS, Oct. 20.—State Printer Burford yesterday began with five presses to print the ballots for the coming election and they will be run eight days before the work is complete. When the five presses complete the work of printing the tickets they will have consumed twenty-three tons of paper. This paper was purchased weeks ago in order to guard against delay in getting the presses started in time. To guard against possible loss of the paper by fire, Mr. Burford had it stored in three separate buildings.

The 1,400,000 ballots, if they were pasted end to end, would reach a distance of 648 miles, or would stretch across Indiana from east to west about four and a half times. After the ballots have been printed they are counted three times by State Printer Burford's men, and careful inspection is made to see that all letters are in position, and that no distinguishing marks are being made.

Two years ago a letter dropped out of one name and 40,000 ballots were ruined before it was discovered that a letter was missing. Each press is numbered on the margin of the ballot so that if in the pile of ballots from the presses an error is discovered it can be readily traced to the press that is doing the bad work.

The Order All Right.

PHILADELPHIA, Oct. 20.—Since the attack against the Order of Tontis, an accountant has examined the order's accounts. In his report he places the assets at \$2,642,884.94 and says the supreme officers have managed the affairs honestly and that the expenses of management are small in comparison with the magnitude of the business. The report shows the order to be sound.

Saloon Row Ends in Murder.

CANTON, O., Oct. 20.—Scott Smith, the expressman shot by George Proston, alias Obernesser, in the Saxon street saloon row, died last Tuesday night. John Ellis, alias "Three-fingered Jack," is at Aultman hospital in a critical condition and there is little chance of his recovery. Preston is still in jail with the charge of first degree murder against him.

The Strike Did Not Take Place.

NEW YORK, Oct. 20.—The threatened strike of the employees of the twenty-one firms comprising the electrical union did not materialize yesterday. The trouble, which is caused by the employment of non-union men, will be brought before the board of walking delegates.

Two Shocks of Earthquake.

MARTINSVILLE, Ind., Oct. 20.—Two distinct earthquake shocks were felt in Morgan county about 8 o'clock yesterday morning. Buildings in this town were shaken and clocks were stopped. No damage resulted.

Two Men Crushed to Death.

COALTON, O., Oct. 20.—Dana Yearling and Charles Brady, two popular young men of this place, were crushed and instantly killed by a fall of slate in a country coal bank near here yesterday.

UNITED STATES ARMY.

Annual Report of the Major General Commanding.

WASHINGTON, Oct. 20.—The annual report of General John M. Schofield, major general commanding the United States army, has been sent to Secretary Elkins. The report briefly reviews the part taken by United States troops in suppressing troubles in Idaho and Wyoming; says the state of discipline and military instruction throughout the army is highly satisfactory; earnestly recommends that the regular troops and state militia be supplied with improved small arms; urges that no lapse be allowed in the appropriations for seacoast defenses; suggests former barracks and stations along the Atlantic and gulf seaboard be repaired and garrisoned, recommending the preparation and submission of estimates for that purpose.

General Schofield urges the passage of pending legislation providing for the reorganization of the artillery into seven regiments, and for the reorganization of the infantry arrangement so that each regiment shall consist of two or three small battalions.

The post schools, he declares, have failed to reach the high standard desired. The national guards are better disciplined and more reliable than ever before. A considerable increase in pay of non-commissioned officers is recommended. The Indian soldiers are entirely satisfactory.

MUCHLY MARRIED MAN.

Charles Wilson Skips from Indianapolis, Leaving a Thirteen-Year-Old Bride.

INDIANAPOLIS, Oct. 20.—In August last Melissa Cochran and Charles Wilson were married, the bride being but thirteen years of age. A few days ago she found a letter which convinced her that her husband was sustaining some kind of a relation with a woman at Covington Ky., and she addressed her a letter of inquiry. An answer was received from the Covington woman, who said her name was Harlow and that she had been married to Wilson under that name.

She also said that she had since learned that she was Harlow or Wilson's fourth wife, from none of whom he had been divorced. Wilson had a number of aliases and married each woman under a different name. Yesterday he took his tools from a shop in which he was working and left the city. He is said to be a stylish and fascinating fellow and well calculated by education to deceive the unwary female.

SKELETONS DUG UP.

Startling Discoveries Made in an Indian Gravel Bank.

CRAWFORDSVILLE, Ind., Oct. 20.—Some time ago George Britton purchased the old Forman farm, two miles west of Crawfordsville, and last week began work on a pit of bank gravel along Sugar creek. He was assisted by George Smith and a force of laborers. On Saturday a human skull and other bones were found in the gravel, and further search Tuesday revealed the presence of some dozen almost perfect skeletons.

The bank will be dug into more extensively, and Mr. Britton is in hopes of making a rare find. The bones are believed to be those of savages, and the pit an old Indian burying ground. One thing, however, seems to combat this theory, and that is the total absence of Indian weapons and implements of work and warfare usually found so abundantly in all cemeteries of the aborigines.

Acquitted of Murder.

PHILADELPHIA, Oct. 20.—Michael Nicklaszinski was yesterday acquitted of the murder of his wife Jadwarza. On Aug. 14 last the woman was found fatally burned in her home with a lamp overturned and the husband in a drunken stupor. The latter was supposed to have caused the fire, but the evidence against him was not sufficient to secure a conviction.

One Hundred and Nine Years Old.

SEYMOUR, Ind., Oct. 23.—Perhaps the oldest resident of Indiana is James McCormick, living a few miles from this city. He will be 100 years old on the 10th of next month. Mr. McCormick still enjoys life. He can visit his neighbors occasionally, and he boasts the honor of having once spoken to George Washington.

Westward Ocean Record Broken.

NEW YORK, Oct. 20.—The City of Paris, which arrived here yesterday, broke the westward ocean record. Her time was five days fourteen hours and twenty-four minutes. The old record was five days fifteen hours and fifty-eight minutes. The days' runs were 448, 508, 503, 505, 530 and 288.

LE CARON'S LATEST.

The Noted British Spy Makes Some Startling Statements.

REMINISCENCES OF HIS LIFE.

He Describes His Visit to the White House While Johnson was President, the Fenian Invasion of Canada and Several Other Events—Serious Accident in Hamburg—Bloody Affrays on the Island of Crete—Other Foreign News.

LONDON, Oct. 20.—In the reminiscences of his earlier life, just published here, Dr. Le Caron, or Thomas Phillip Beech, the British spy, who gave testimony on behalf of The Times before the Parnell commission, states that, when he and General O'Neill were received at the White House in Washington by President Johnson, the president told O'Neill that he sympathized with the Fenians and was willing to do all in his power to assist in the Fenian movement.

"You must remember," said President Johnson, "that I gave you full five days before issuing the proclamation stopping you. In God's name, what more do you want? If you could not get there in five days, by God, you could never get there. And then, as president, I was compelled to enforce the neutrality laws or be denounced on every side."

Le Caron describes the Fenian invasion of Canada, showing how he became acquainted with every man of any importance connected with the movement. He says that only twice was he in any danger of discovery. The first occasion was when he incautiously took down the names of Fenians in his note book. He was denounced, tried and acquitted by his comrades. He resigned his position in order to emphasize his innocence, and was begged to remain in the organization. After considerable persuasion he relented and secured a stronger position than ever.

The second occasion was when he was arrested in Canada as a Fenian, and only escaped the fury of the populace and discovery by making a clean breast to the mayor of the place, who conveyed him secretly out of the city.

Le Caron states that some of the Fenians, suspecting one of his government accomplices, Rose, as a spy, thrashed Rose, while he (Le Caron) was obliged to applaud their actions.

Le Caron appears to have done valuable service to the British government in thwarting the Fenian invaders of Canada, and his revelations explain many things not heretofore understood. Le Caron asserts that Parnell believed in force as the means of liberating Ireland. He says that in an interview with him Parnell confessed his belief that nothing but the force of arms would accomplish the final redemption of Ireland. He went carefully into details on the league's resources for an open movement of insurrection, and said they had £100,000 in the treasury. He discussed the position of home and American revolutionary organizations, and defended the American policy. "I parted with him by assuring him that I would do all he wished."

Le Caron gives an interesting account of the escape of Egan from his British pursuers. In regard to plots, he says that the Clan-na-Gael's plans included a treaty with Russia, the manufacture of a submarine torpedo boat to inflict terrible damage on the British navy; plots to assassinate the queen; to kidnap the Prince of Wales, and to rescue Michael Davitt from prison. One plot was to blow up parliament by throwing bombs on the table in front of the speaker. Another project was to steal the stone of Scone, which serves as the seat of the coronation chair in Westminster Abbey on which the Scottish kings were crowned before the sacred stone was carried off by Edward I of England.

In regard to the modern Irish American agitator, Le Caron says: "Gold is his God, his brevity and his beads. He attains his ends by jobbery, trickery and delusion, of the meanest and most despicable type. He bravely and blusteringly advocates desperate enterprises from the safe distance of three thousand miles."

Le Caron says that Dr. Gallagher, who directed the dynamite campaign, was often in parliament, and, he heard, had been introduced to Mr. Gladstone.

Christians and Turks Fighting.

LONDON, Oct. 20.—Advices from the island of Crete state that serious affrays have occurred there between the Christians and the Turks. In the encounters reported four Christians were killed and fourteen Turkish soldiers killed, besides twenty being wounded. The bishop of Spaliki obtained a promise from the Turkish governor, Chevet Pasha, that the Croitians who had taken part in the riots would not be molested if they were willing to act peaceably hereafter. In violation of this promise, it is reported eight Croitians were seized and sent to Tripoli and the Christians are arming to demand their release.

WEATHER INDICATIONS.

For Kentucky, fair, northerly winds.

THE Republicans are all trying to make little of the men leaving their party and coming over to the Democrats; but it makes their eyes as large as saucers, all the same, every time they hear of a new departure.

REPUBLICAN papers don't better their cause by referring in contemptuous terms to such distinguished men as Judge Gresham, Judge Cooley, Hon. Wayne McVeagh and General Jacob D. Cox who have lately expressed their intention of voting for Cleveland.

THE Commercial Gazette made light of ex-Governor Cox's desertion of the G. O. P. a few days ago, but it is still devoting a good deal of space to a man who "hasn't any following," to use the language of some other Republican papers. The C. G. refers to him in contemptuous terms as "a chronic kicker." Republican papers will not make any votes by such talk.

THE straw that will break the back of the Democratic donkey in Kansas and Colorado is the fact that Mrs. Lease, the lady representative of the Populists, has advised her party to scratch their ticket and vote for Harrison electors.—Public Ledger.

Drowning men will catch at straws, but the Lease story wasn't even a straw. In a telegram to a New York paper, she pronounces the report that she had advised People's Partites to vote for Harrison as "unqualifiedly false." The Democratic rooster in Kansas and Colorado will be heard from on November 8th.

THE HIGH TARIFF.

Let us turn from this dangerous policy which multiplies millionaires, puts a few selected industries, oppresses all others, and perpetuates itself by corrupting the sources of political power. Instead of shivering behind the Chinese wall of antiquated and hurtful protection, let us adopt an American policy of courageous reliance on our boundless resources, our unequalled ingenuity, our aggressive enterprise. Let us free all our home manufactures from taxes on raw materials and then trust to the industry and genius of our people to win us the foremost place in the manufactures and the commerce of the world.—General Ewing in Cincinnati Post.

Above all other dates nearly every pupil remembers that Columbus discovered America October 12, 1492. They will all want to know why the four hundredth anniversary falls on October 21, 1892. For many centuries the calendar instituted by Julius Caesar, known as the Julian calendar, was commonly accepted. This calendar assumed that there were 365 1/4 days in a year. But as this made the year eleven minutes and fourteen seconds too long, it could not without correction very long answer the purpose for which it was devised. Consequently, in 1582, it was found necessary to reform the calendar, and the Gregorian calendar was adopted. In order to correct the errors that the old calendar had made, ten days were dropped out, and October 5, 1582, became October 15. As the error was found to be exactly three days in every 400 years, the Gregorian calendar omitted the leap year from every centennial year excepting those which were divisible by 400. Thus the years 1500, 1700 and 1800 were not leap years. As above stated, this reformation took place in 1582, and ten days were dropped from the calendar. But as Columbus discovered America previous to the year 1500, which, reckoned by the Gregorian calendar, would not be a leap year, there would be but nine days to omit. On October 21, 1892, the sun will occupy the same relative position to the earth as on the memorable October 12, 1492. The Gregorian calendar was not introduced into Great Britain until 1751, popular ignorance and prejudice up to that time successfully opposing it, and Russia still adheres to the Julian calendar.

"Nora Machree."

At the opera house to-morrow night Miss Sadie Scanlan, the matchless Irish comedienne, will present for the first time here her successful comedy drama, "Nora Machree." The scene of the play is laid in Ireland, and the story is told in a witty and most delightful manner. Songs, dances and choruses, purely characteristic of the Emerald Isle, are cleverly introduced and blend most pleasingly with the action of the play. The scenic effects are an important feature; the scenery, costumes and minor details are not only accurate, but beautiful and picturesque. A company of marked ability surround the star—artists who aid greatly to success of the merry play. Tickets at Nelson's.

THE colored folks are celebrating "Emancipation Day" at Dieterich's grove to-day. The hand-bills announce "Hon. Thomas A. Davis, Hon. J. R. Spurgeon and Hon. John P. McCartney" as three of the orators. The managers seem to have slighted Judge Holt and A. M. J. Cochran, Esq. An attempt was made to get the colored G. A. R. Post to turn out in a body but it failed. A member of the Post remarked that "if Mr. Davis and Mr. McCartney wanted to talk to the colored voters, let them go to the court house."

At Lexington, Superintendent S. A. Charles, of the water works, was fined \$100 and costs and sentenced to jail for thirty days for carrying concealed weapons, while Captain B. J. Treacy was fined \$50 and costs for assault and battery. The two men had a scrap in front of the Phoenix Hotel some days ago over the water works question.

THE crowning event of the social season at St. Louis this fall was the Veiled Prophet's ball. Mason County was represented by Miss Lottie Perrine, of Tuckahoe, who wore a gown of cream embroidered China silk, cut princess, with pearl and lace trimmings.

A TELEGRAM this morning says "Ole Olson" played to a packed house at Chillicothe, O., last night and gave the best of satisfaction. The company will arrive here this evening on the west-bound F. V.

MORE SINGLE X CLUBS.

Helena and Minerva Democrats Organize--Enthusiastic Meetings at Both Points.

Two more single X Democratic Clubs were added to the list last night--one at Helena and the other at Minerva. A big crowd was present at both places and the meetings were enthusiastic.

The meeting at Helena was presided over by Committeeman William Mitchell. The school house was crowded, and people stood around the windows. The attendance was quite in contrast with that of a few evenings ago when A. M. J. Cochran, Esq., Republican, and Dr. Yantis, Populist, spoke there. They had only about thirty people to talk to. From 60 to 70 were present last night.

County Attorney Newell was unable to attend on account of sickness, and Mr. James N. Kehoe, Chairman of the Executive Committee, was the speaker of the evening. He gave them a plain, earnest talk on the issue of the campaign, and had the closest attention throughout. At the close of his speech, the "Helena Single X Democratic Club" was organized, with Mr. George Costigan as President and Mr. Stephen Harrison as Secretary. The club will hold another meeting next Monday night.

THE MEETING AT MINERVA.

The Democrats of Minerva precinct met last night in the First Baptist Church at that place for the purpose of organizing for the campaign. A large and enthusiastic crowd was present. The meeting was called to order by Mr. Wm. Hawes, who introduced the first speaker of the evening, Frank P. O'Donnell, Esq. Mr. O'Donnell dilated upon the principles, platforms and policy of the political parties, and for longer than an hour was listened to with the closest attention. C. L. Sallee, Esq., then ascended the rostrum, and in a neat, clean-cut address occupied another hour in dissertation on the very important subject--how to vote under the new Election law. Ballots for instruction were exhibited and a distributed and all were soon convinced by the speaker's elucidations that the ballot system is easily understood and is accompanied by many advantages not possessed by the *visa voce* mode of voting. A club was then organized and christened "The Minerva Single X Democratic Club," Dr. McNutt being chosen President and Mr. Wm. Hawes Secretary. The club started out with forty-seven members.

The greatest harmony prevailed, and some of Minerva's most charming ladies graced the occasion by their presence. The club will meet every Friday night.

The "Burr Oak Single X Democratic Club" held another rousing meeting last night. Commonwealth's Attorney Sallee and Mr. C. Burgess Taylor were the speakers, and were enthusiastically applauded. It was Mr. Taylor's maiden effort on the rostrum. The officers and members are all actively at work, the membership having been largely increased since the club was organized. Their badge is a novel but appropriate one, consisting of a large acorn fitted to fancy colored silk ribbons.

Meetings will be held to-night at Dover and Washington. The list of speakers is published elsewhere in this issue. All cordially invited.

A meeting will also be held to-night at the court house to organize a club in the six precincts of this city. The club will select a campaign committee for each city precinct, and every Democrat should be on hand. Colonel George Washington, of Newport, an eloquent speaker, will address the meeting. Hauck's Reed and Brass Band will furnish music. The public invited. Seats will be reserved for the ladies.

Another Game Played in the World's Championship Base Ball.

CLEVELAND, Oct. 20.—The last of the three games to be played in this city to decide the national championship base ball was won yesterday by the Boston because of their more timely batting by a score of 3 to 2. There were plenty of opportunities for the local men to win but their bad base running interfered greatly with their chances for success.

Davis was unable to play owing to an injured heel, and probably will not appear again in the championship series. This will to some extent weaken the Cleveland. He batted once yesterday afternoon in the ninth inning in place of Young, but did not fill any regular position.

As in the first game the Cleveland's bore off the fielding honors. Many of their plays were of a sensational nature and Childs and McKean particularly excelled in brilliant work. Had they done as well on the bases they might have won with ease.

In the first inning Cleveland batted Stivetts furiously and after that the hits were well scattered. Childs began with a hot drive past Nash for a base, and Burkett followed it with a two base hit, almost in the same place. Tebeau went out at first but McKean sent both base runners home with a hard clean drive to center field for a base. In Boston's half, Long hit safely but was forced out at second. McCarthy finally managed to steal second and scored on Ganzell's line hit to right field.

The second run that Boston got in the second inning never should have been scored. Lowe began with a single to left and was advanced to second on a sacrifice. Quinn hit to left field and Burkett misjudged the ball. He should have caught it with ease, and his failure to make the play turned it into a two base hit and gave Lowe a run.

In the eighth, Stivetts' two-bagger and McCarthy's line single, scored the winning run for the Boston. The Cleveland made a desperate effort to tie the game in the ninth, but just failed, McAleer getting to third. The entire party left last night for Boston in two special cars. Attendance, 7,500.

A King Inquires About Mrs. Harrison.

CHICAGO, Oct. 20.—Just before the diplomatic train for the world's fair left Washington Baron Fava, minister from Italy, was given an audience by President Harrison at the White House. The baron called, pursuant to instructions in a telegram from Foreign Minister Brin, and explained to the president that the instructions of King Humbert were to inquire after the health of Mrs. Harrison and to express his majesty's wish that she might soon recover. President Harrison expresses his grateful thanks for the sympathy of the Italian majesty, which Baron Fava sent to Rome by wire upon his arrival in this city.

Cincinnati's Celebration.

CINCINNATI, Oct. 20.—The first of a series of three great parades in honor of the discoverer of America, took place here yesterday in which 20,000 boys of the public school participated. Thirty-six bands furnished the music for the occasion. Many of the children were in uniform and all carried little flags. This afternoon the Catholic school children will parade over the same line of march and to-morrow the great naval and civic parade takes place which will end with a grand reception in Music Hall to-morrow night.

Natural Gas Explosion.

ANDERSON, Ind., Oct. 20.—A fatal natural gas explosion occurred here yesterday morning and the shock was felt all over town. Frank Platter, of the firm of Platter & Son, pump manufacturer, attempted to light a grate fire, when accumulated gas caused a terrific wreck. The building fell in on the unfortunate man, and he was removed from the debris fatally injured.

Both Legs Cut Off.

WABASH, Ind., Oct. 20.—At Benton Harbor yesterday William Churchill, a man of fifty, drove his team of horses near a Big Four switch engine in the yards. The animals took fright, lunged forward and threw Mr. Churchill from the wagon in front of the locomotive, which run over him, cutting both his legs off at the knees. His injuries will prove fatal.

Band Leader Skips Out.

COLUMBUS, Oct. 20.—W. S. Powell, the well known leader of the Fourteenth regiment band, has appropriated about \$300 of the band's money and deserted his wife and children. His absence was first known outside his family yesterday when he failed to show up with the band accompanying Governor McKinley to Chicago. He is an inveterate gambler.

Raging Forest Fire.

RED KEY, Ind., Oct. 20.—Fire has been raging in the woods near Blaine, in this county, for several days, and last night several houses in the village were destroyed and difficulty was had in saving the elevator, which was filled with grain. A high wind spread the fire until it assumed dangerous proportions.

Esquimaux in Chicago.

CHICAGO, Oct. 20.—Fifty-seven Esquimaux, who come to exhibit at the world's fair, reached Chicago Monday night over the Erie in a car sealed by the United States customs officers at Boston.

A Female Leper.

PHILADELPHIA, Oct. 20.—Another leper has been discovered here. The victim is a woman. She is now in the municipal hospital with two others.

No Change in Mrs. Harrison.

WASHINGTON, Oct. 20.—Mrs. Harrison passed a good night. Her condition remains practically the same.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD,

Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE,

Conway, Ark.

The Centaur Company, 71 Murray Street, New York City.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,

111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
